Dear Mr. and Ms. Blais,

Thank you for your recent remittance in support of the Blazeman Foundation for ALS Postdoctoral Fellow Mugdha Deshpande, who conducts her research in the laboratory of Professor Avi Rodal. Professor Rodal continues to do and publish outstanding, innovative work on the life and death of neurons and the basic biology behind ALS. Your support is critical to the efforts of her lab and to training the next generation of ALS researchers.

Your strength and courage remain an inspiration to us here, and I thank you for helping Brandeis join you in the fight against this devastating disease. I look forward to continued collaboration.

Best regards.

Sincerely,
