

MULTI-SPORT MOVEMENT TO END LOU GEHRIG'S DISEASE

So Others May Live

Our Supporters

Thank you to these great friends and brands for all of your support. Warriors, they're there to support you, too! Think of them for your next event or purchase.

Did you see professional triathletes Leanda Cave or Matt Russell race this year? What about age-grouper Carrie McCoy? Did you see Brent Bieshaar race recently? What about Bishop Leatherbury? Jeff Galvin? Debra Saltz? Garen Riedel? James Garris? And the countless others that we know roll for a cause bigger than themselves...?

Across the country and around the world. They trained for months. Raced their fastest. No matter their country, team or speed, they all had one thing in common.

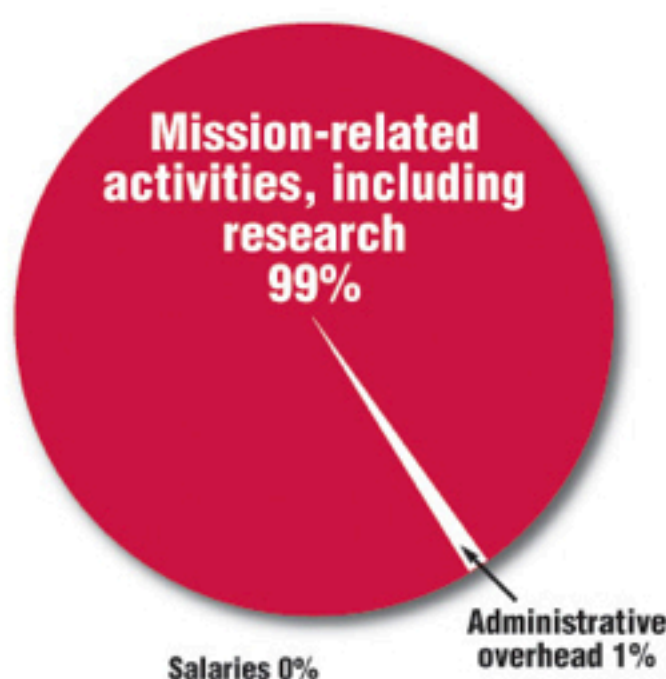

They dropped to their knees at the finish line and rolled across. At the moment when they should've been smiling high and feeling proud they were at their most humble.

Did you see it? Do you wonder why?

I'll tell you. These athletes and thousands of others just like them know that there is no proud finish line for patients living with ALS. No high-five. No remission. No cure. Their logroll over the finish line symbolizes the Blazeman Foundation's WARonALS.

The Blazeman Foundation is the foundation for ALS research among multi-spot athletes. This is your foundation. We exist to serve you and your loved ones - to provide hope, healing and use the best tool we have-research. In these uncertain economic times, the Foundation and its research partners at Brandeis University, Wake Forest and University of Maryland Brain and Tissue Bank count on your support - now more than ever.

Your gift of \$50, \$100, \$500 or even a leadership gift of \$1,000 or more can make all the difference... to our research partners and every one here who works to serve you. But keep in mind less than 1% of your donation goes to administrative costs. That means more than 99% goes directly to help us fight the WAR on ALS.

Please consider making as generous a gift as you can.

Your donation will bring us all a little closer to the finish line. When we can proudly hold our heads high and know we've won the war and found a cure.

Thank you so much for your help.

Sincerely,
Mary Ann and Bob Blais
Jon's mom and dad

PS. Please consider making a tax-deductible gift in Jon's name, your name or for any of the 5,600 people who will die this year from this disease. Please give before December 31 of this year. That will help us with timely planning for another successful year in 2014.

"FREEDOM!"
